

With 9 R&D Centers,

## COVENTYA ENVIRONMENTAL PLATING TECHNOLOGY (JIANGSU) CO., LTD.

### Continues to Improve Its Surface Treatment Technology

COVENTYA is an international group of companies specializing in designing, manufacturing and serving specialty chemicals for the surface treatment industry. Headquartered close to Paris France, COVENTYA spans the globe with more than a dozen affiliates which provide identical products and customer services to a variety of applicators or end users in the manufacturing industry.

Today, COVENTYA has nine Research and Development centers, located in Italy, Germany, France, UK, USA, South Korea and Turkey, each with a specific purpose related to the strength of its local industries. With a full line of products that find use in many industries from automobiles and oil fields to computers and fashion, it is clear that COVENTYA products touch our lives each and every day.

COVENTYA Surface Treatment Technology (Suzhou) Co., Ltd. was solely invested and established by the Group in 2005 and officially entered China market since then. After over a decade of growth, the company successively set up branch offices in Wuhan, Changchun, Dongguan, and Qingdao, and built up a large amount of

high-quality customers. In order to provide the customers with better and more comprehensive products and services, the Group expanded the investment in China. A new factory was built in 2018 on the self-purchased land in Xushuguan Town, New District, Suzhou City and renamed as COVENTYA Environmental Plating Technology (Jiangsu) Co., Ltd. The new factory covers an area of 12,500 m<sup>2</sup>, with a building area at around 10,000 m<sup>2</sup>. With 20,000 tons of annual capacity, it became the largest production site of the Group. The Technical Center covers an area of 1,200 m<sup>2</sup>. A series of technical services including sampling, bath analysis, parts performance tests will be provided with the facilities and equipment installed.

COVENTYA has embarked on a quest to interweave an eco-conscious approach to every aspect of our business. A commitment to sustainability within our organization that directs us as we pursue a collective bottom line: People, Planet, Profit. ■
