ENGIMACH-COMFAST

12/04-08 The Exhibition Centre, Gandhinagar, Gujarat

The Indian industrial fastener market can be segmented into high tensile fasteners and mild steel fasteners. Growing automotive and auto ancillary sector, increasing infrastructure and construction activities, developing heavy engineering industry comprise some of the key factors propelling the industrial fastener market in India.

The market has huge opportunities with an increase in upcoming manufacturing activities in the defense and automotive sectors.

Indian industrial fastener market is poised to grow over the coming years along with the steady economic growth of the country.

Over the years, ENGIMACH has been one of the prime contributors to the development of the machine tools industry, that enables its participants and visitors with cutting edge and power house technology that stands for engineering excellence, innovation, quality and reliability. ENGIMACH is not just a trade show but a platform to see, understand and learn where the industry is heading to. The showcase at ENGIMACH shall offer a quintessential launch pad for new ideas, products and services, a conducive environment for forging joint ventures, collaborations and an open marketplace to source ideal solutions with anticipated 1,00,000 visitors and beneficiaries.

Fastener Trade Show Suzhou 10/23-25 Suzhou International Expo Center

As one of the most specialized fastener exhibitions in the world and a widely expected fastener event, the 19th Fastener Trade Show Suzhou is dedicated to connecting the upstream and downstream of fastener manufacturing industry. Focusing on end users and building a global fastener trade platform are the highlights of the show.

Suzhou, one of the central cities in Yangtze River Delta, is the most developed and modern cities in Jiangsu Province of China. In addition, Suzhou enjoys a very convenient transportation with a distance only 80 km away from Shanghai, and less than 200 km away from Jiaxing, Wuxi, Ningbo, Hangzhou and many other fastener manufacturing bases. Therefore, the Suzhou show can not only help visitors easily connect with most of the fastener manufacturers in China, but also provide them with a good chance to visit the fastener factories.

In recent years, the Suzhou show has expanded into two halls, respectively the Fastener Hall and the Equipment Hall, with a total exhibition space of 12,000 sqm. The 19th Fastener Trade Show Suzhou will continue strong momentum with more than 400 expected fastener and supporting manufacturers worldwide. Therefore, the show will offer a great opportunity for professional buyers to do one-stop purchasing of fastener products, production equipment and auxiliary products, as well as raw materials.

According to the statistics of previous Suzhou shows, visitors came from 40 countries and regions around the world. It is expected that the 19th Fastener Trade Show Suzhou will attract over 12,000 local and overseas buyers. ■
