## **Cover Story**

Ambrovit is a leading company in fastening systems, an Italian entrepreneurial reality that looks to the future with confidence, believes in the Italian and foreign market, with continuous development in technological research, product, growth, and adaptation in the automation, without leaving behind the adaptation to the new logics of communication and the quality of both our product and customer service.

22

With an extremely wide catalogue of articles that are constantly being updated, Ambrovit offers products that are increasingly innovative in terms of both technology, materials and finishes.

Every professional sector can find in the catalogue what is necessary to carry out every job, from carpentry to construction, from mechanics to wood.

## Periodical Adaptation to Meet **Market Demand**

But if a high-performance, high-quality product is essential to be a market leader, the continuous adaptation of the infrastructure to make logistics quick and punctual is no less important. It is therefore a natural consequence that Ambrovit periodically adapts its automation lines to the constant increase in market demand, so that the customer can benefit from a perfect service, with fast delivery times, without inaccuracies, knowing that he can count on a reliable partner.

## A Perfectly Warehouse

In order to have a catalogue of thousands of products ready for delivery, it is also necessary to have an adequate, **Organized** It is also necessary to have an adequate, easily accessible and perfectly organised warehouse.

> For this reason, Ambrovit has doubled its warehouse and management robotics with the most up-to-date technology on the market today.

All the products in the catalogue are constantly tested in the renovated technical and experimental laboratory dedicated to quality control with the most sophisticated equipment, a further guarantee for the customer who can then interact with the company to obtain useful information for use, based on needs.

With a large market, which today includes almost all European countries in its portfolio, achieving international standards and having all the most important European certifications is an obligation and essential objective that Ambrovit has pursued in recent years. The certifications obtained are a satisfaction for Ambrovit, for its work and commitment.

The ever-renewed portal www. ambrovit.com is an important working tool for dealers, where they can find all the technical information and types of Ambrovit products. The portal contains various topics and information, such as the interactive catalogue www.catalog.ambrovit. it/, which is clearly laid out and easy to consult, and is a fundamental working and sales tool for Ambrovit customers.
