Only Taiwanese exhibitors exhibiting through Taiwan's exclusive agent Fastener World are listed.

為了方便統計準確，上述台灣扣件展團名單以有向本展台灣總代理商匯達公司報名為準。

Join the fastener and fixing industry's international gathering, as Fastener Fair Global is back for 2023 in Stuttgart

Fastener Fair Global 2023, the 9th International Exhibition for the Fastener and Fixing Industry, takes place from 21 – 23 March 2023 in halls 1, 3, 5 and 7 at Messe Stuttgart Exhibition Centre in Germany. The event is a meeting place for leading international organisations in the fastener and fixing sector and an opportunity for exchanging competencies and views on current technological developments.

Exhibitors at Fastener Fair Global present products and services from the following sectors:

- Fastener manufacturing technology
- Industrial fasteners and fixings
- Construction fixings
- Assembly and installation systems
- Storage, distribution, factory equipment
- Information, communication and services

Fastener Fair Global provides an excellent platform to establish new contacts and build successful business relationships between suppliers, manufacturers, distributors, engineers and other industry professionals from various production and manufacturing sectors looking for fastening technologies.

International firms representing the market

Some 835 companies have confirmed their participation at Fastener Fair Global 2023, covering 22,000 sqm of the exhibition ground. International firms from 42 countries are participating in the show, representing SMEs and large multinational enterprises mainly from Germany, Italy, China, Taiwan, India, Turkey, the Netherlands, the UK, Spain and France.

Ahead of the event, Liljana Goszdziewski, Portfolio Director for the European Fastener Fairs, comments: "After four years since the last edition, it is rewarding and exciting to be able to welcome the international fastener and fixing industry at Fastener Fair Global 2023. The high turnout of exhibiting companies confirmed at the event reflects how keen the sector is to get together face-to-face and participate in the show to allow plenty of business networking activities and enable new sales and learning opportunities in a fast-growing market."

A positive outlook of a growing sector

Fastener Fair Global provides a marketplace with a unique showcase and networking platform in one of the world's leading industrial economies. The global industrial fasteners market size was valued at USD 88.43 billion in 2021 and is predicted to expand at a compound annual growth rate (CAGR) of 4.5% from 2022 to 2030. The market is expected to be driven by population growth, high investment in the construction sector, and rising demand for industrial fasteners in the automotive and aerospace sectors. Moreover, the industrial machinery segment is set to expand at a CAGR of 5.0% from 2022 to 2030. The rapid growth of heavy machine-driven industries, including textiles, food and beverage, and chemicals, is expected to propel the demand for industrial machinery, thus driving the need for industrial fasteners over the forecast period.

Serving a wide variety of industries

Exhibitors will be aiming their products and services at many industries, including:

- Construction
- Automotive
- Aerospace
- Marine
- Electronic and Electrical Goods
- General Engineering - Light/Heavy
- HVAC / Air Conditioning / Services
- Energy and Power Generation
- Communication Technology
- Metal Products
- Furniture Manufacturing
- Sanitary Ware and Plumbing
- Installation

A high satisfaction level recorded by attendees

Over 12,000 senior managers, engineers and buyers visited the last edition of Fastener Fair Global. The mix of visitors to the show represented the diversity of markets served by the fastener and fixing industry. Most visitors were producers, wholesalers or distributors, playing a vital role in the supply chain to resellers and the manufacturing sector.

The vast majority of visitors at Fastener Fair Global achieved their business goals by attending the event, with 91% of visitors claiming to be highly satisfied with the show. As a result, 3 in 5 visitors would recommend Fastener Fair Global to their colleagues and business partners.

Fastener Fairs – connecting fastener professionals worldwide

Fastener Fair Global belongs to the highly successful worldwide series of Fastener Fair exhibitions for the fastener and fixings industry. These include the portfolio flagship event, Fastener Fair Global, as well as Fastener Fair Italy, Fastener Fair India, Fastener Fair Mexico and Fastener Fair USA.

FASTENER FAIR GLOBAL 2023 Pre-show Orientation for Taiwan Exhibitors Ends with Satisfying Feedback

After four years of postponement, Fastener Fair Global will finally be held on March 21-23, 2023. The organizer's exclusive agent in Taiwan, Fastener World Inc., is expected to form a large exhibiting group of more than 130 Taiwanese companies to participate in the Fair, which will further deepen the cooperation between Taiwanese fastener supply chains and the greater European market full of business opportunities.

In order to provide Taiwanese exhibitors with a more comprehensive understanding of the details that should be paid attention to before and during the Fair as well as the current situation of the European market before setting out to participate, the organizer's exclusive agent in Taiwan, Fastener World, held a pre-show orientation on January 11 (Wed.) at Evergreen Plaza Hotel (Tainan) and invited more than 100 exhibitor representatives to attend. TFTA Chairman Josh Chen and TIFI Executive Secretary Shih-Tsung Huang on behalf of TIFI Chairman Tu-Ching Tsai were also present to deliver their speeches.

Fastener World Magazine President William Liao said in his opening speech, "I'd like to thank everyone for exhibiting at FF Global through Fastener World. Since the first edition of the Fair, its popularity and importance in the global fastener industry has been increasing year after year, and it is now the largest and most leading dedicated fastener fair in the world. Every past year, more than 100 Taiwanese exhibitors chose to exhibit through Fastener World. This show is also an important platform for Taiwanese exhibitors to develop the European market and strengthen their business deployment in Europe. We hope that through this pre-show orientation, our professional team can help exhibitors make adequate preshow preparations and seize the European fastener market, which is gradually recovering after the epidemic."

During the conference, the editors of Fastener World also briefed about the overall development trend of Taiwanese fasteners exported to the world over the past 20 years, important data and events of exporting to Europe and the United States, the dynamics of European target manufacturers and the recent concerns of European buyers, etc., which were presented in tables and charts. Vice Editor-in-Chief of Fastener World Magazine, Gang Hao Chang said, "In 2022, Taiwan's fastener exports reached 1,607,000 tons, almost the same as in 2021, and the export value reached US\$6.142 billion, a 15.47% increase compared to 2021. The competitiveness and performance of Taiwan is more impressive than that of other countries. These slides will not only let exhibitors understand the importance of Taiwan's fastener supply chain in the global industry and the expectation of its future development, but also will let them know the fact that the current overseas exhibitions have gradually returned to normal and that overseas buyers are looking forward to contacting Taiwanese suppliers at the Fair face to face and to discussing purchasing and further cooperation."

Many exhibitors also made their inquiries about the floorplan, exhibition permits and documents applications, stand furniture and extra rentals, product delivery, exhibition planning and itinerary...etc. Fastener World's staff were also present to provide detailed onsite explanations, which did help them a lot.
