Shenzhen International Fastener Exhibition

03/31-04/03, 2026

Shenzhen World Exhibition & Convention Center

- ◆ **Exhibition area:** 20,000 M²
- ◆ **Number of exhibitors:** 300
- ◆ **Number of standard booths:** 900
- ◆ **Expected number of visitors:** 30,000
- ◆ **Exhibit category:** Precision standard parts, high-end fasteners, industrial-use fasteners, non-standard parts, CNC machined parts, fastener materials, equipment, dies & molds, and consumables
- ◆ **Exhibition feature:** The show for all fastener supply chains in Southern China, connecting over 120,000 industry professionals visiting ITES and related procurement resources.
- ◆ **Co-located with:** ITES 2026 in Shenzhen

Taiwan International Fastener Show

Taiwan International Fastener Show

04/22-04/24, 2026

Kaohsiung Exhibition Center

Fastener Taiwan is the most professional B2B international fastener exhibition in Taiwan, serving as a one-stop sourcing platform with a full range of fastener products and a highly integrated supply chain. Fastener Taiwan 2026 serves as a significant international trade show for the global fastener industry. Under the theme "Sustainable Fasteners, Precision in Action!", the show focuses on the practical applications of sustainability, green innovation, and smart manufacturing, driving the industry's transition toward a net-zero future. In the face of net-zero transformation and global supply chain realignment, Taiwan has firmly retained its position as the world's third-largest exporter of fasteners, thanks to its well-integrated industrial clusters, strong precision manufacturing capabilities, and highly flexible supply chain.

Fastener Taiwan 2026 emphasizes value-added manufacturing and low-carbon development. The show will highlight breakthroughs in R&D, smart manufacturing, and carbon reduction, offering the latest fastener applications across advanced sectors such as EVs, aerospace, semiconductors, medical devices, and construction. More than 10,000 buyers and industry professionals from around the world are expected to attend to explore cross-border and cross-sector business opportunities.

Fastener Fair USA

05/05-05/06, 2026

Charlotte Convention Center, Charlotte, NC

As North America's premier trade show and conference for the fastener industry and its allied manufacturing sectors, Fastener Fair USA offers an unparalleled opportunity for every link in the supply chain to converge, collaborate, and cultivate new connections. The Fair covers every facet of the industry, from manufacturers to master distributors, equipment makers, processors, packagers, and end-users. Fastener Fair USA isn't just an event; it's a gateway to the future of fastening technology and solutions.

Top Reasons to Attend

- ◆ **Networking:** Fastener Fair USA provides a unique platform for attendees to network with peers, exchange ideas, and establish new business relationships.
- ◆ **Product Showcase:** Attendees can explore the latest products and technologies in the fastener industry and gain insights into emerging trends.
- ◆ **Industry Insights:** The event features expert-led sessions and workshops that offer valuable insights into the latest industry developments, best practices, and regulatory updates.
- ◆ **Supplier Sourcing:** Attendees can source new suppliers, evaluate products and services, and compare prices to make informed purchasing decisions.
- ◆ **Professional Development:** Fastener Fair USA provides opportunities for attendees to enhance their professional skills, expand their knowledge base, and stay abreast of industry trends and advancements.

SUBCON THAILAND

SUBCON THAILAND

05/13-05/16, 2026

BITEC

In 2026, SUBCON Thailand returns with an even stronger role as a premier platform connecting global buyers with high-quality component manufacturers across rapidly expanding industries - including Automotive & EV, Electronics, Smart Logistics, Automation, Machinery, and Industrial Parts. This year's buyer portfolio spans OEMs, Tier 1-2 manufacturers, component and technology importers, procurement and sourcing managers (Procurement / Sourcing / SCM), as well as executives from leading companies in Thailand and abroad - ranging from EV and battery producers, global electronic parts manufacturers, warehouse and logistics solution providers, to technology companies expanding their production bases across ASEAN. These buyers are actively seeking specialized partners in automation, industrial components, warehouse management, and cost-optimization solutions that enhance efficiency - aligning with the manufacturing sector's goal of developing next-generation supply chain solutions to compete on the global stage.

SUBCON Thailand stands as a pivotal gateway for meeting high-quality buyers and unlocking new business opportunities - leading toward SUBCON Thailand 2026, the regional business-matching arena that empowers manufacturers to achieve end-to-end growth, from supply chain solutions to large-scale industrial partnerships.

International Fastener Show China

05/20-05/22, 2026

Shanghai World Expo Exhibition & Convention Center

As one of the most influential global fastener exhibitions aiming at enhancing global industry exchange and cooperation, this edition of IFS China will be arranged upon the established Hall 1 (raw materials, equipment, molds, and consumables) and Hall 2 (fastener products), adding Hall 3 (cutting-edge fastener technologies, high-end fasteners, smart and "intelligent" manufacturing brands). The synergy of these three halls forms a complete industrial ecosystem of "R&D-Production-Application-Upgrade." Hall 3 is primarily open to the renowned Chinese and international fastener brand enterprises, for the sake of creating an exclusive platform for gathering top brands, demonstrating core strengths, and facilitating high-level dialogue. From May 20 to 22, 2026, the "Golden Combination of 2+1 Halls" will be launched at the Shanghai World Expo Exhibition and Convention Center. With a massive scale of 60,000 square meters, 1,300 global exhibitors, and 40,000 professional visitors, the IFS China 2026 will reshape the exhibition and communication ecology of the global fastener industry. This edition will provide the first interconnection of Hall 1 to 3, creating a three-dimensional display system of "Basic Core + Terminal Application + Innovation Engine," precisely matching the needs of diverse industry participants. By virtue of a million-level buyer database, the organizers of IFS China have confirmed the organization of procurement groups from emerging markets including Brazil, Russia, and the Middle East, as the international procurement zone will facilitate "zero-distance connection between suppliers and buyers." Over 20 professional events will be held concurrently with the exhibition, directly addressing the three major trends: "High-End, Environmental, and Intelligent."

Fastener & Hardware Indonesia

05/20-05/22, 2026

JIEPXO, Jakarta International Expo

The fastener industry is facing steady growth driven by automotive, construction, and manufacturing sectors. With a projected CAGR of over 7% in industrial fasteners through 2030, the market is seeing innovation in materials and technology, positioning Indonesia as a rising player in the regional and global fastener supply chain. The fastener and hardware industries are related to each other with the shared supply chains and mutual reliance in product use. Fastener & Hardware Indonesia 2026, will be held in conjunction with INAPA 2026, which focuses on fastener, tools, equipment, and hardware industries. This exhibition provides a platform for businesses and professionals to present their products, innovations, and technologies related to fastening and fixing solutions and hardware tools.

METALTECH & AUTOMEX

05/20-05/23, 2026

Malaysia International Trade and Exhibition Centre (MITEC)

For the past decade, METALTECH & AUTOMEX has pioneered the growth of metalworking, machinery, robotics and automation industry in Malaysia, being the first dedicated business event to represent various sectors of the manufacturing industry including electrical & electronics, automotives, aviation, food & beverages, plastics & rubbers, pharmaceuticals and medical technology. The annual event hosts more than 1,500 providers of metalworking and machine tools technologies from 19 countries & regions as well as group pavilions from China, Germany, Singapore, Taiwan and South Korea. Both trade events are held at Malaysia International Trade & Exhibition Centre (MITEC), Kuala Lumpur, Malaysia. METALTECH is world renowned for the manufacturing industries as the most effective platform for suppliers to launch their new products and services to local and regional buyers, gaining new leads and attaining new businesses. The show will feature the latest technologies from 33 specialised profiles; attracting more than 20,000 visitors over the four day duration. METALTECH will also feature its established co-exhibition, the International Automation Technology Exhibition (AUTOMEX), an industry leading automation technology exhibition. Attracting exhibitors and visitors from around the world, AUTOMEX is the ultimate showcase of the latest technologies in automation and manufacturing processes, while featuring a variety of robotics, assembly and machine-vision solutions. ■
