Rising Demand in Central Europe Drives Momentum for FASTENER POLAND 2026

Date: 10/14-15, 2026 Venue: EXPO Krakow

The FASTENER POLAND® trade fair has been the most important meeting for the fastener industry, where key purchasing decisions are made. During the last edition over 170 exhibitors from 17 countries presented their products. Among the products on display at the booths were high-tensile screws, structural rivets and double-ended fasteners, riveting tools, optical screw measurement systems, and fasteners for the automotive industry. Last year's event attracted 3,054 visitors from 36 countries. The largest representation of companies from outside Poland was made up of entrepreneurs from the Czech Republic, Slovakia, Italy, Germany, and Romania. Guests from as far away as Saudi Arabia, Japan, and South Korea were also present.

MITEX Fasteners – a New Point of Attraction for the Russian Fasteners and Hardware Market

Date: 11/10-13, 2026 Venue: Crocus Expo IEC

For the second year in a row, the special section MITEX Fasteners has been consistently formed as an independent and professional platform for the fasteners and hardware market. The project is part of the Moscow International Tool Expo – MITEX, the largest in Russia and the CIS countries, which will be held on November 10-13, 2026 in Moscow, at the Crocus Expo IEC.

Already in 2025, the project showed a solid start: 55 companies from Russia, China and India presented their solutions, and the exhibition itself demonstrated how high the market's interest in a specialized format entirely dedicated to fasteners is. The growth in demand for fasteners in Russia is offset by an increase in supplies from abroad.

Today, the Russian fasteners market is developing in difficult conditions: Demand from construction and industry is growing, but at the same time competition from imports is increasing. In response, domestic manufacturers are increasingly rebuilding their business models: investing in equipment upgrades, automation, and new materials, expanding product lines, developing cooperation with scientific and engineering centers, and building more flexible logistics. In this strategy, industry events such as MITEX Fasteners become an important tool — this is where companies can demonstrate the level of their products, find new partners and respond more quickly to market demands.

Participation in MITEX Fasteners provides a unique opportunity to review the market for fasteners and hardware systems, monitor trends and prices, and sign contracts for the supply of products and equipment.

MITEX Fasteners was created for such a dialogue. The exhibition is built around the real needs of the industry and covers the entire path of fasteners — from production to end use:

- Industrial and construction fasteners;
- Assembly and installation systems;
- Nails and wire;
- Equipment and technologies for the manufacture of fasteners;
- Solutions for testing and quality control;
- Standardization and certification;
- Packaging, storage, logistics and sales.

MITEX Fasteners is not just an exhibition section, but a working environment for finding solutions, strengthening the positions of Russian manufacturers and forming a new competitive architecture of the fasteners market in Russia.

MITEX is the only international exhibition in Russia, the CIS countries and Eastern Europe that presents the full range of tools: power tools and hand tools, equipment for metalworking, construction and repair, painting and varnish coatings, equipment for processing and cutting metal, glass, stone and other materials, gardening equipment, inventory and much more. In 2025, the exhibition area was 50,000 square meters, with 927 companies from 7 countries participating. Read more on the exhibition website www.mitexpo.ru/en/

(METALEX) 40 周年

METALEX Celebrates 40th Anniversary with "Infinite Possibilities"

Date: 11/18-21, 2026 Venue: BITEC

METALEX, the No. 1 Machine Tools and Metalworking Event in ASEAN, organized by the region's leading exhibition organizer RX BITEC, will mark its 40th anniversary under the theme "Infinite Possibilities," bringing together the region's metalworking community to explore new technologies, solutions and opportunities.

For 40 years, METALEX has built a strong legacy among metalworking professionals across the region and beyond, serving as a platform for innovative machinery, the latest equipment and cutting-edge solutions from thousands of leading global brands. This year, the event will occupy 55,000 square meters across Halls 98-104 of the Bangkok International Trade and Exhibition Centre (BITEC), bringing together more than 3,000 brands from leading technology providers and over 100,000 industry professionals from more than 50 countries over four days.

Alongside live demonstrations and showcases covering machine tools, sheet metalworking, robots, welding, wire and tube, metrology, tools and tooling, factory automation, AI, pump and valves, as well as equipment and accessories, METALEX 2026 will introduce four special highlights to mark its 40th anniversary:

- **FUTURE TECH @ METALEX:** Witness the next-generation innovations transforming the manufacturing industry, reinforcing METALEX's position as the No. 1 metalworking exhibition in ASEAN.
- **METALEX NETWORKING GALA:** An exclusive networking event bringing together industry professionals and representatives from invited organizations to foster stronger relationships and meaningful business collaborations.
- **METALEX TOMORROW:** A series of high-impact, interdisciplinary seminars featuring insights and forward-looking perspectives from international speakers.
- **ASEAN COMMUNITY:** A special business-matching service designed to connect METALEX exhibitors with buyers and industry associations from ASEAN member countries.

METALEX 2026 will take place from 18-21 November 2026, 10:00-18:00 hrs., at BITEC, Bangkok.

Exhibit space is now open for booking. To explore infinite possibilities of doing business in Thailand and ASEAN, visit www.metalex.co.th or contact metalex@rxbitec.com.

2026 越南胡志明国际五金工具展 (VHHE)

Vietnam International Hardware & Hand Tools Expo 2026

Date: 12/3-5, 2026 Venue: Saigon Exhibition and Convention Center (SECC)

The 11th Vietnam International Hardware & Hand Tools Expo 2026 (VHHE 2026) will take place from December 3-5, 2026 at Hall B, Saigon Exhibition and Convention Center (SECC), Ho Chi Minh City.

Building on the success of previous editions, VHHE continues to affirm its position as one of the leading specialized exhibitions in the mechanical engineering and supporting industries in Vietnam. The event serves as a vital bridge connecting industry players, promoting domestic consumption, expanding opportunities to participate in global supply chains, and spreading the DIY trend among consumers.

In 2025, the exhibition welcomed many renowned domestic and international brands. The event featured 348 exhibitors with over 455 booths and attracted 21,026 visitors from 65 countries and territories.

VHHE is a comprehensive trade event covering the full value chain—from manufacturing, repairing, assembling, and construction to personal device usage (DIY). The exhibition continues to support the development of Vietnam's mechanical engineering industry. With an expected scale of over 450 booths across 6,000 sqm, the show will highlight five key product groups: Tools, Power Tools, Fasteners, Building Hardware, and Personal Protective Equipment (PPE). These categories serve a wide range of industries, including engineering, manufacturing, construction, and DIY applications.

The event will be held concurrently with the 24th Vietnam Expo HCMC 2026, organized by VINEXAD—one of Vietnam's leading exhibition organizers. With an estimated 1,000 booths from over 20 countries and territories, the combined event is expected to welcome approximately 25,000 trade visitors over three days. ■
