Fastener World at FF Global 2023

Innovation at the Heart of

FASTENER FAIR GLOBAL

From 25 - 27 March, industry professionals will meet in Stuttgart for the 10th edition of Fastener Fair Global – the international flagship event for the worldwide fastener and fixing industry. After a record attendance in 2023, visitors can look forward to another transformative event full of networking and business opportunities, with premier access to top-tier suppliers from across the globe. 2025 will see the launch of two focus pavilions, promoting specialist solutions for a fast-changing industry.

Nearly one month ahead of the show, more than 900 companies from 44 countries have already confirmed their participation at Fastener Fair Global 2025, covering a gross exhibition space of well over 52,000 square metres. Visitors can expect a stellar line-up on the show floor, presenting the full supply chain for fastener and fixing elements in manufacturing, construction, and other industrial applications.

Over three days, there will be numerous opportunities to personally engage with innovation leaders like: Ambrovit, Böllhoff, Chavesbao, Eurobolt, Fastbolt, Index, Inox Mare, Lederer, Norm Fasteners, Obel Civata, Paal, Pasvahl, Reyher, Sacma, Schäfer+Peters, Tecfi, WASI, Würth, and many more. Filling four expansive halls, they provide a unique cross-section of the global fastener and fixings sector, with significant participation from Germany, Italy, China, Taiwan, India, Turkey, the Netherlands, the United Kingdom, Spain, and France.

With its unmatched coverage of fastener and fixing products and related equipment, Fastener Fair Global 2025 is expected to attract widespread interest from diverse markets. In 2023, key visitor sectors included metal production, automotive, distribution, construction, mechanical engineering, hardware & DIY retailing, and electronics. Nearly three in four visitors came from outside Germany, pointing towards the increasing global reach of the show.

2025

166 Taiwanese Exhibitors are Ready!

Fastener Fair Global is the world's most popular and largest trade fair for fasteners. Fastener World, the sales agent of the fair organizer in Taiwan, will also bring 166 Taiwanese fastener related companies to Stuttgart, Germany this year. The majority of Taiwanese exhibitors will be located in Hall 5, while some others will be in Halls 1 and 7. The Taiwan Pavilion is one of the major international pavilions this year, which is expected to attract many professional buyers and purchasers to visit to inquire about the high quality fastener products and services required by different industry chains and seek more cooperation opportunities.

More than 160 Taiwanese exhibitors were present at the last fair in 2023, and this year's fair will continue to be large in scale, featuring a wide range of products including raw materials, finished/semi-finished fasteners, production machinery/equipment, molds & dies, power/pneumatic/hand tools, as well as peripheral secondary processing services for the construction, automotive, industrial, and higher-end industrial applications.

In addition, in light of the EU's Carbon Border Adjustment Mechanism (CBAM), which will officially come into effect on January 1, 2026, many Taiwanese exhibitors will be showcasing their net-zero carbon reduction efforts to visiting buyers and purchasers at the fair. It is known that many Taiwanese exhibitors have already obtained the ISO 14064-1, ISO 14067 or other CBAM-related certificates, and some are currently applying for or conducting in-plant audits. In the future, Taiwanese manufacturers will be able to create more favorable competitive conditions for EU customers in the market and gain more sales.

Professional buyers, importers and distributors are welcome to visit the Taiwan Pavilion during the 3-day exhibition period! ■
