

IATF-Certified Craftsmanship, Liang Ying Targets Fastener Fair USA

FASTENER FAIR USA Booth no. **1004**

LIANG YING FASTENERS INDUSTRY CO., LTD.
www.liang-ying.com

In the precision manufacturing sector, Taiwan's parts makers are renowned worldwide for exquisite craftsmanship, and Liang Ying Fasteners Industry is emerging as a trusted value-added partner for international buyers with its diverse product lineup and top-tier machining technology. This May, Liang Ying will shine at Fastener Fair USA, drawing key buyers' eyes from U.S. markets and beyond. *From automotive and aerospace to medical and semiconductor components, Liang Ying delivers miniature-level precision to meet the most demanding high-end needs.*

The company boasts 6 factories spanning approximately 4,959 square meters of expansive space, equipped with 220 advanced machines *focused on CNC machined parts and customized components. Product outer diameters range from 1mm to 52mm, covering everything from micro-precision to mid- and large-sized parts* with exceptional processing flexibility. It supports both low-volume diverse prototyping and high-volume production runs. Its export markets have long spanned Europe (Germany, Italy), the U.S., Japan, and Canada, with a solid foothold on the world stage.

Facing rigorous customization demands from overseas buyers, Liang Ying demonstrates professional adaptability. It specializes in milling precision machining, tailoring products to client drawings, samples, or special specs to boost product performance and cut overall costs. Its rapid prototyping and flexible production capabilities effectively respond to market shifts, ensuring stable quality, on-time delivery, and real-time feedback with dynamic adjustments to perfectly fulfill client needs. This "reliable partner" model has earned acclaim through countless international orders.

Liang Ying places a focus on fields where precision and safety are paramount. Its success hinges on a comprehensive technical philosophy and rigorous management. *First, it processes a wide array of materials like aluminum alloys, stainless steel, carbon steel, copper, etc., to suit diverse applications. Second, it holds ISO9001:2015 and IATF16949 certifications proving unrelenting quality systems.* Ongoing upgrades to measuring equipment, strengthened process controls, and regular staff training ensure every product maintains consistent precision and meets global standards. This "precision-first, continuous evolution"

ethos transforms Liang Ying from a Taiwanese precision specialist into a vital global supply chain player.

At Fastener Fair USA, Liang Ying's booth will be led by two expert sales representatives showcasing high-precision parts and hand tool components. The goals are clear: develop potential customers through face-to-face interactions to deepen collaboration; boost global visibility; highlight machining technology and precision; and gauge U.S. industry trends for future planning. As North America's premier manufacturing event, the fair serves as Liang Ying's ideal platform to expand in the Americas. The company is convinced that amid global supply chain reshuffling, Taiwan's precision manufacturing edge will dazzle: "If you're seeking a stable, professional, long-term manufacturing partner, we sincerely invite you to our booth to experience Liang Ying's craftsmanship!" ■
