

Rising Demand in Central Europe Drives Momentum for FASTENER POLAND 2026

**FASTENER
POLAND®**

The new year is a time for new projects, challenges, and plans. When thinking about promoting and acquiring new business contacts in global markets, it's worth considering participating in the FASTENER POLAND® Trade Fair. The 9th edition of this unique trade fair for fasteners and fixing technology in Central and Eastern Europe will take place on October 14th-15th 2026 in EXPO Krakow, Poland.

Polish industry consumes large quantities of fasteners annually. The main industries are automotive, aerospace, and construction. Construction is also a significant segment. Industrial development is driving increased demand for specialized, high-quality fasteners.

For several years now, the FASTENER POLAND® trade fair has been the most important meeting for the fastener industry, where key purchasing decisions are made. During the last edition over 170 exhibitors from 17 countries presented their products. Among the products on display at the booths were high-tensile screws, structural rivets and double-ended fasteners, riveting tools, an optical screw measurement system, and fasteners for the automotive industry. Last year's event attracted 3,054 visitors from 36 countries. The largest representation of companies from outside Poland was made up of entrepreneurs from the Czech Republic, Slovakia, Italy, Germany, and Romania. Guests from as far away as Saudi Arabia, Japan, and South Korea were also present.

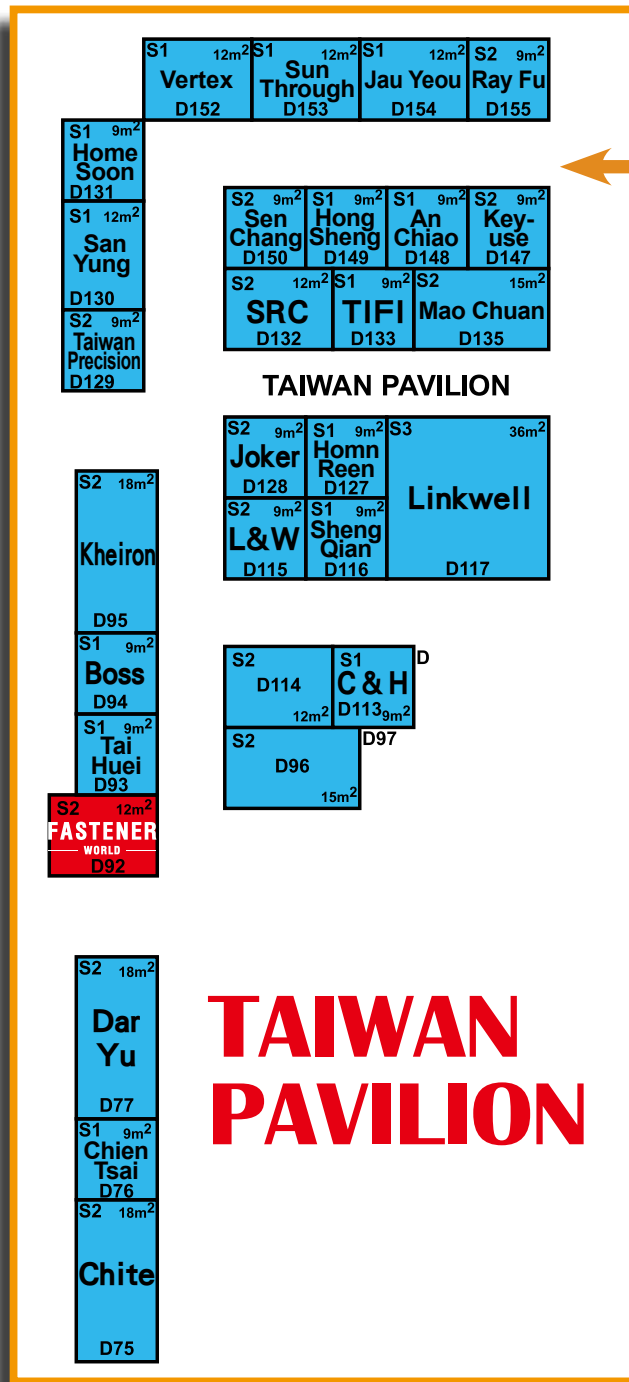

The FASTENER POLAND® trade fair is also an opportunity to gain expert knowledge about the current market situation. The annual conference attracts audiences interested in current and future challenges, such as CBAM.

Sales for booth and exhibition space for the upcoming event have already begun. The organizers are providing a wide range of options tailored to exhibitors' needs. For more show info, contact the organizers' sales agent in Taiwan, Fastener World, at foreign@fastener-world.com.tw

FASTENER WORLD INC.
foreign@fastener-world.com.tw

Established in 1987, Fastener World Inc. is a world-renowned marketing media for fasteners, hardware, and industrial components industries. With a team of nearly 40 years of experience in offering the global industry the most effective marketing solutions and the combination of printed magazines, online B2B platform, representation of leading int'l trade shows, and instantaneous business info service, Fastener World provides the industry with diversified marketing approaches to promote their brand awareness and boost order intake.

Our publications include:

- Fastener World Magazine Bimonthly Edition
- Hardware & Fastener Components Magazine
- Fastener World Europe Special Edition
- China Fastener World Magazine
- Emerging Fastener Markets Magazine

Our publication has a circulation of over 10,000 printed copies per issue sent to more than 200 countries and we participate in at least 30 int'l trade shows per year. We are also the exclusive sales agent in Taiwan of Fastener Fair Global, IFE, Fastener Poland, Fastener Fair India, Fastener Fair Mexico, etc.

C & H INTERNATIONAL CORP.

www.chtaiwan.com.tw

info@chtaiwan.com.tw

C & H International is a professional fastener and hardware sourcing company based in Taiwan. Through our extensive supply chain network, we are able to provide a wide range of standard and custom-engineered fasteners, including print-to-specification products, to fully support our customers' requirements. Our strong partnerships with qualified manufacturers throughout Asia enable us to deliver competitive pricing, consistent quality, and reliable supply. In addition to our extensive product knowledge and application expertise, we have a thorough understanding of the critical importance of quality, delivery performance, and customer service. To ensure the highest standards, we work closely with a TAF-accredited laboratory (equivalent to A2LA accreditation) to provide comprehensive testing and quality assurance services that meet the demanding requirements of high-end markets. At C & H International, we are committed to building long-term partnerships by offering competitive costs, superior quality, and dependable delivery performance. If your company is seeking a reliable supplier to reduce costs, improve product quality, and strengthen supply chain performance, we are confident that our services can provide significant value.

CHIEN TSAI MACHINERY ENTERPRISE CO., LTD.

www.jiancai.com.tw

jiancai@jiancai.com.tw

Chien Tsai Machinery was founded in Taiwan at 1973. Main product is thread rolling machine with screws diameter 1.0mm to 42.0mm and thread length up to 600mm. Products are exported globally around the world like Europe, Asia, America. Chien Tsai expanded its scale in 2017, acquiring another 30 acres of land in Jiashan, China, establishing Zhejiang Jiancai Machinery Co., Ltd. Our company has passed the ISO9001, ISO14001, ISO45001 certification.

Automatic Thread Rolling New Generation High Performance Machine, Brand new mechanism design with high speed output:

CTR8N-3" Product Range:

M5-M8

Screw length: 75mm

Thread Length: 50mm

Rolling dies stationary length:

127/140/25

Main Power: 15HP

Max. Output: 110-350 pcs/min.

**no.D128****JOKER INDUSTRIAL CO., LTD.**

www.joker-fastener.com
info@joker.com.tw

Joker Industrial Co., Ltd. is a Taiwanese fastener manufacturer with over 40 years of expertise in construction anchors, exporting more than 90% of its output to Europe. In 2014 it became Asia's first concrete screw maker certified to ETA Option 1. Its portfolio spans 40+ types of anchors and fasteners, including heavy-duty anchors, ETA- and seismic-certified concrete screws, A4 stainless steel screws, IATF 16949 automotive jack nuts, and hollow-wall anchors. Its patented structures cut material use while raising load capacity, backed by fully integrated stamping, cold-forming, threading, and zinc die-casting. Certified to ETA, IATF 16949, and ISO 9001, and guided by its "Little Things Matter" philosophy, JOKER delivers innovative, reliable fixing solutions to customers worldwide.

Engineered for composite panel façades, the Sandwich Panel Concrete Screw features an A4-316 body with oversized EPDM washer to neutralize thermal expansion stress and ensure lasting stability. It replaces pre-embedded rail systems for fast, error-free on-site installation. It is ETA certified (cracked & uncracked concrete), fire-rated, and Seismic C1 approved, with multiple embedment depths and bimetal A2/A4 options. Direct factory supply, consistent quality, competitive pricing.
