

The Ultimate Gathering for the Fastener Industry:

International Fastener Expo 2026

October 7–9, 2026 | Phoenix Convention Center, Halls 1–4

Get ready for a milestone event in the fastener industry—one that promises both tradition and innovation in an all-new location. The International Fastener Expo (IFE), North America's largest and most established gathering for suppliers, distributors, and OEMs in the fastener industry, is heading to an exciting new location: **Phoenix, October 7–9, 2026**. We are thrilled to bring IFE to Phoenix for the first time, providing fresh opportunities to build connections, uncover new business partners, and experience vibrant networking events in the North American market while cultivating lasting relationships with industry leaders across the continent.

IFE is more than just a trade show; it is the epicenter of innovation and connection for the fastener world. **The event consistently attracts over 5,000 attendees from 30 countries**, representing a diverse range of high-stakes industries, including: Construction, Aerospace, Military, Electronics, Automotive.

This new setting in Phoenix opens the door to fresh collaborations and unmatched networking experiences. Attendees and exhibitors alike will have the chance to interact with industry leaders, decision-makers, and key influencers, making every conversation meaningful. Phoenix's energy and hospitality set the stage for memorable networking receptions, educational sessions, and spontaneous connections that can propel your business forward. ■

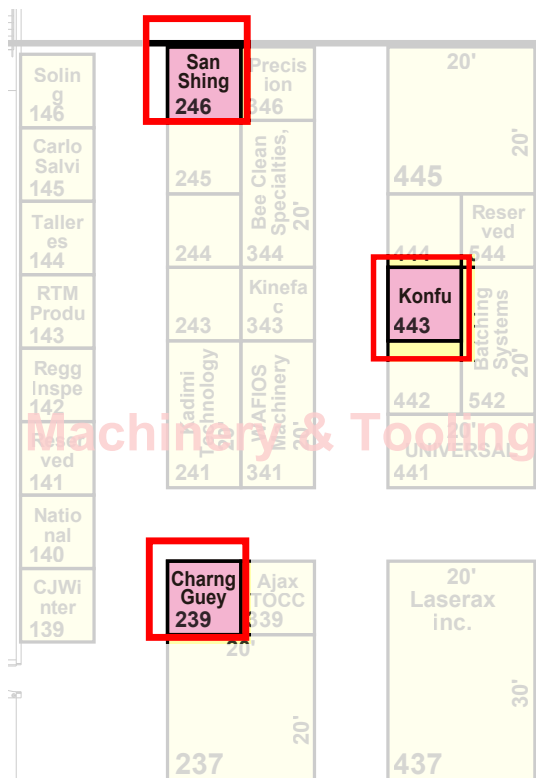

See you in Phoenix!

FASTENER WORLD INC.

www.fastener-world.com

Established in 1987, Fastener World Inc. is a world-renowned marketing media for fasteners, hardware, and industrial components industries. With a team of nearly 40 years of experience in offering the global industry the most effective marketing solutions and the combination of printed magazines, online B2B platform, representation of leading int'l trade shows, and instantaneous business info service, Fastener World provides the industry with diversified marketing approaches to promote brand awareness and boost order intake.

- ⊙ Fastener World Magazine
- ⊙ China Fastener World Magazine
- ⊙ Hardware & Fastener Components Magazine
- ⊙ Emerging Fastener Markets Magazine
- ⊙ Fastener World Europe Special Edition

Our publication has a circulation of over 10,000 printed copies per issue sent to more than 200 countries and we participate in at least 30 int'l trade shows per year. We are also the exclusive sales agent in Taiwan of Fastener Fair Global, IFE, Fastener Poland, Fastener Fair India, Fastener Fair Mexico, etc.

A-PLUS Screws Inc., established in Vietnam in 2009, specializes in manufacturing high-quality Stainless Steel Screws for various industries.

Committed to quality, reliability, and customer satisfaction, the company provides innovative fastening solutions, dependable delivery, and engineering support.

Certified with ISO 9001, ISO 14001, CE, BSCI, and ISO 14064-1, A-PLUS is a trusted partner serving global industrial customers.

3249
AUTOLINK INTERNATIONAL CO., LTD.
www.auto-link.com.tw

Autolink International Co., Ltd., the international sales division of MHS Group, specializes in weld nuts and weld tubes for automotive and industrial applications. Supported by strong manufacturing expertise and an established supply chain network, we deliver high-quality fastening solutions with consistent quality, reliable delivery, and responsive service. Backed by MHS Group's manufacturing operations, certified to ISO 9001, IATF 16949, ISO/IEC 17025, and ISO 14001, we proudly serve customers worldwide.

3439
BI-MIRTH CORP.
www.bi-mirth.com

Bi-Mirth offers wood screws, concrete screws, self-drilling screws, self-tapping screws and other similar articles for building applications. It is capable of producing long wood screws (one of its major advantages) and has a professional and well-experienced R&D team, which can develop custom-made products as per customer's demand. The ISO9001:2008, TS16949, ISO14001, ETA, ICC certified Bi-Mirth ensures that customers can get various services with stable quality.

3843

DE HUI SCREW INDUSTRY CO., LTD.

www.dehuiscrew.com

Founded in 1988, Taiwan-based De Hui Screw is a premier manufacturer specializing in construction fasteners. We offer a comprehensive range of high-quality products, including self-drilling, stainless steel, roofing, decking, and drywall screws, alongside custom manufacturing tailored to drawings or samples.

Driven by our core values—superior quality, exquisite packaging, prompt delivery, and thoughtful service—we are your trusted partner for global fastener solutions. Visit our booth to explore how we can support your business!

3745

EVEREON INDUSTRIES, INC.

www.ydseverein.com

Founded in 1994 in Taichung, Taiwan, Evereon Industries, Inc. is a leading global manufacturer of stainless steel worm gear hose clamps, worm drive hose clamps, and customized clamps. We deliver precision-engineered fastening solutions across a diverse range of industries, including automotive, industrial machinery, plumbing, agriculture, and heavy-duty sectors.

Evereon offers a comprehensive product styles, including worm gear hose clamps, worm drive hose clamps, high torque hose clamps, butterfly clamps, ear clamps, and CV joint boot clamps. With a deep technical expertise and flexible production capabilities, we are confident that Evereon will be your reliable partner for quality hose clamps.

4141

FASTENER JAMHER TAIWAN INC.

www.jamher.com

Fastener Jamher Taiwan Inc. specializes in the manufacturing of high-quality customized nuts and special parts, backed by over 20 years of industry experience.

Jamher is certified to international certifications, including IATF 16949, ISO 9001, ISO 14064-1, ISO 14067 and ISO 14001, ensuring consistent quality and reliability. With advanced equipment and efficient processes, Jamher delivers precise and durable fastening solutions for diverse industrial applications.

Available materials include carbon steel, stainless steel, brass, aluminum, and other alloys. With strong engineering capabilities and flexible customization services, Jamher is committed to meeting customers' unique requirements while maintaining exceptional product performance and customer satisfaction.

3556

HI LINK INDUSTRIAL CO., LTD.

hilink99.com.tw

Founded in 2007, HI LINK INDUSTRIAL CO. LTD. is a professional manufacturer in the stainless steel screws. We not only specialize in manufacturing products to the international specifications but also are skillful in the development of special customized stainless steel screws. Our founder is a technician who is very familiar with the manufacturing process of stainless steel screws. With the rich experience, we have developed into a factory capable of supplying diversified products with the competitive price, superior quality and service.

3549

HSIUNG JEN INDUSTRIAL CO., LTD.

www.hsiungjen.com

Hsiung Jen is a professional manufacturer of metal fastening components for the automotive and motorcycle industries. Our product range includes U-Nuts, high-pressure hose clamps, lamp clips, and various multipurpose fastening clips. With over 20 years of continuous third-party certification to ISO 9001 and IATF 16949 standards, we have been serving as a trusted Tier 1 and Tier 2 supplier within the supply chains of leading automotive manufacturers.

3557

HWA HSING SCREW INDUSTRY CO., LTD.

www.hwahsing.com

Founded in 1973, Hwa Hsing Screw Industry Co., Ltd. is a Taiwan-based manufacturer with over 50 years of expertise in precision fasteners. Our product range covers self-tapping screws, chipboard screws, self-drilling screws, deck screws, drywall screws, machine screws, and special screws — engineered to meet the demands of distributors, contractors, and OEMs worldwide. Visit our booth at the International Fastener Expo to discover our latest offerings and explore partnership opportunities. Your Demand, Our Motivation.

3844

JET FAST COMPANY LIMITED

www.jetfast.com.tw

Founded in 1979 in southern Taiwan, Jet Fast is a professional manufacturer in Blind Fasteners with IATF16949 certificate. The line encompasses more than 400 items in different sizes & materials. We offer the high-quality Rubber Nut-Insert & Metal Rivet Nut with speedy service to facilitate customers' requirement of various applications. Our products are mainly used on automotive, industry and DIY markets for architecture among Europe and North America with a great worldwide reputation. The dimension can be customized according to customer's needs.

4043

JUNG SHEN TECHNOLOGY CO., LTD.

www.jungshen.com.tw

JUNG SHEN TECHNOLOGY CO., LTD. was established in 2022 and is headquartered in Taiwan.

Combining a number of experts with more than decades of experience in welding, materials, mechanism, and management, we have successfully developed stable manufacturing technology and high-quality products that can meet a large amount of demand for Bi-Metal screws in the world.

Our Competitive Advantages

1. Material Inspection
2. Forming & Cleaning
3. Automatic Welding Machine
 - Microcontroller Unit,
 - Resistance-based Welding,
 - Multistage current control (To ensure product yield > 99.50%),
 - Automated Production (Size from 22mm - 400mm)
 - Automatic detection for NG products,
 - No-machining after welding
4. Well Type Annealing Furnace
5. Straightening, Drill Pointing & Thread Rolling
6. High Frequency & Tempering
 - Workpieces rotate 360° to be heated evenly
 - Micro-controller Unit Control & Thermostat Setting
 - Precise partial heat treatment

4041

KAN GOOD ENTERPRISE CO., LTD.

www.kangoodco.com

We specialize in producing various metal fasteners, DIY hardware kits and reusable construction anchors. Our kits include essential assembly tools such as hex wrenches, screws, instruction manuals, and custom parts. Each package is prepared using semi-automatic machinery with precise weighing and inspection to ensure accuracy and quality. We also design durable, reusable anchors for building applications, offering reliable solutions for both DIY projects and professional construction needs. With our expertise in packaging and component integration, we provide buyers with complete, ready-to-use kits that combine convenience, efficiency, and trusted performance.

3644

MAC PRECISION HARDWARE CO.

www.machardware.com.tw

MAC Precision Hardware was established in 1978 and operates manufacturing facilities in Kaohsiung, Taiwan, and Ningbo, China. As an IATF 16949 certified manufacturer, we specialize in high-precision, customized metal components designed to meet the most demanding industry requirements. Our product portfolio includes inserts, standoffs, shafts, bearings, special screws, nuts, and other custom-engineered parts. These products are widely used in the automotive, electronics, medical, industrial machinery, and consumer product sectors. With over 45 years of manufacturing experience, advanced production capabilities, strict quality control, and reliable on-time delivery, MAC Precision Hardware has built long-term partnerships and earned the trust of customers worldwide.

3238

MAO CHUAN INDUSTRIAL CO., LTD.

www.maochuan.com.tw

Mao Chuan- Professional Stamping manufacturer

With years of experience in cooperation with tire 2 automotive supply chain, Mao Chuan is strictly conducted under IATF 16949/ VDA 6.1 /ISO 14001/ ISO 14064-1/ ISO 9001 quality & environmental management. Mao Chuan has a wide range of products, including Automotive Metal Parts, Spring Nuts & Clips, Nuts, Bushing/Sleeving, Washer, Deep Drawing, Clamp, Bracket, Weld Nut for seats belts, compression limiters and various customized component products. You are very welcome to provide us drawings or samples with specification for evaluation, we will offer you best price promptly.

3655

METAL FASTENERS CO., LTD.

www.fasteners.com.tw

Metal Fasteners specializes in precision fasteners and metal components in brass, steel, aluminum, and stainless steel. With Cold Forming, Turning, and CNC capabilities, we offer efficient and flexible manufacturing solutions. Our S, CLS, SO, and BSO series use cold forming, delivering seamless parts with no cut-off marks, no secondary finishing, and a flat, refined appearance, ensuring high quality and cost competitiveness.

4139

QUINTAIN STEEL CO., LTD.

www.quintain.com.tw

Quintain Steel is a Taiwan-based fastener manufacturer specializing in construction screws and fastening solutions for global markets. Our main products include drywall screws, decking screws, collated screws, self-drilling screws, and threaded rods, serving professional construction, distribution, and DIY applications. With integrated steel resources, experienced manufacturing capabilities, and ISO 9001:2015 quality management, we are committed to delivering stable quality, reliable supply, and flexible service. Backed by decades of steel industry experience, Quintain Steel continues to support customers with competitive products, responsive communication, and long-term partnership value.

3237

RAY FU ENTERPRISE CO., LTD.

www.ray-fu.com

Ray Fu specializes in the manufacturing of screws and cold heading wires, offering a comprehensive range of fastening solutions for construction, automotive, and aerospace applications. With a fully integrated production system covering wire manufacturing, screw production, heat treatment, finishing, quality inspection, packaging, and export, Ray Fu provides efficient one stop sourcing for global customers.

Visitors will discover high performance fastening products, flexible OEM/ODM capabilities, and reliable supply chain solutions backed by international certifications, including ISO 9001, ISO 14001, IATF 16949, AS 9100D, BIS, ETA, CE, ISO 14064 1, and ISO 27001.

REXLEN CORP.

www.rexlen.com.tw

Taiwan-based Rexlen, with 40+ years of expertise since 1977, specializes in high-quality, customized fasteners and components.

ISO/IATF 16949 certified factories and dual TAF/A2LA certified labs ensure top-tier quality for a wide range of products including automotive parts,

CNC machined parts, and stamping parts. Partner with Rexlen for your one-stop fastener solution. More information is available on the Rexlen website.

3451

RONG YIH JIANG ENTERPRISE CO., LTD.

www.rongyih.com

Established in 1990, Rong Yih has been committed to manufacturing power tool accessories, such as Mag. Nut-setters, Mag. Bit-holders, and all kinds of special Socket Adapters and Ratcheting screwdrivers. We welcome the opportunity to design and manufacture the best tools for customers.

3334

SE FA ENTERPRISE CO., LTD.

www.sefascrew.com.tw

Visit SEFA Enterprise in Phoenix This October!

Established in 1994, SEFA is an ISO 9001 and CE-certified manufacturer specializing in high-quality screws—including self-tapping, self-drilling, and customized fasteners. With over 500 tons of monthly manufacturing capacity and premium finishes like Ruspert and Magni, we meet your precise standards. Let's build a greener future together with our sustainable manufacturing.

3456

SHUENN CHANG FA ENTERPRISE CO., LTD.

www.scffastener.com

Shuenn Chang Fa Enterprise Co., Ltd. (SCF)'s commitment to ESG principles allowed them to apply for ISO 14064-1, positioning the company as one of the leading ESG factories in Taiwan. They are now working on ESG compliance that aligns with GRI rules.

Throughout its 40-year history since its inception, the company has maintained a steadfast focus on the production of customized design screws, specialized long screws, and automotive screws. The majority of these screws are manufactured in-house and subjected to rigorous inspection at each stage of the production process. SCF has earned certifications including IATF 16949, ISO 14001, and ISO/IEC 17025, attesting to its commitment to quality and environmental standards.

Additionally, SCF provides a comprehensive range of customized screws, with lengths spanning from 10mm to 1000mm, offering customers a one-stop solution to meet their diverse needs.

YOUR CHOICE FASTENERS & TOOLS CO., LTD.

www.ycs.com.tw

Founded in 1992, Your Choice Fasteners & Tools Co., Ltd. (YCS) is a Taiwan-based manufacturer specializing in construction fasteners, including self-drilling screws, self-tapping screws, and customized fastening solutions. Our products are designed for reliable performance, with screw lengths up to 360 mm and drilling capacity through steel thickness from 0.5 mm to 20 mm. With ISO 9001:2015 and CE certifications, YCS supplies customers across Europe and North America with stable quality, technical support, and dependable delivery to achieve monthly capacity of 1000 tons.

Welcome to visit our booth and discover how Your Choice can support your fastening needs with engineering-driven solutions.

3332

YOW CHERN CO., LTD.

www.yowchern.com.tw

Yow Chern continuously upgrades equipment such as multi stroke machines, CNC lathes, and multi axis milling machines to focus on precision fasteners. For EV charging device of copper products, it demonstrates strong integration and customization, meeting automotive industry standards. By enhancing added value and developing high end fasteners, it builds unique competitiveness.

3454

CHONG CHENG FASTENER CORP.

www.cfc.net.tw

Advanced Locking Washer Nut Solution for Reliable Fastening

For decades, CFC has specialized in the development and manufacturing of high-quality fastening solutions. With extensive expertise in cold forging, assembly technology, and precision manufacturing, CFC provides innovative locking nut solutions for customers worldwide.

Comprehensive Anti-Loosening Product Portfolio

CFC offers a complete range of locking washer nuts designed to improve fastening security and assembly efficiency:

- Nylon Insert Washer Nut: Prevailing torque designed for superior vibration resistance. Ideal for automotive and industrial application.
- Flange Washer Nut: Provide mechanical locking action and vibration. Prevent loosening under dynamic loads and vibration.
- Conical Washer Nut: Even Load Distribution, Reduces localized stress on the mating surface. Certain conical washer designs provide spring-like action that helps maintain preload. Reduce the risk of loosening caused by vibration or dynamic loading.
- Bi-Metal Washer Nut Assemblies: Combine the advantage of different materials. Enhance corrosion resistance and fastening reliability.

Designed for Safety and Performance

CFC locking washer nuts helps manufacturers:

- Reduce the risk of fastener loosening
- Improve assembly safety
- Increase product reliability
- Lower maintenance costs
- Support automated assembly processes

Precision Manufacturing and Quality Assurance

All products are manufactured under strict quality control standards using advanced cold forging and assembly technologies. Customized designs, special materials, and various surface treatment are available to meet customer-specific requirements and international standards.

Discover how CFC's locking washer nut solutions can enhance fastening performance, improve operational safety, and create long-term value for your products.

3555

CHANG YI BOLT CO., LTD.

www.changyi.com.tw

Finding a reliable fastener manufacturer shouldn't be the hardest part of your supply chain. Welcome to Chang Yi Bolt Co., Ltd. Based in Taiwan, we're bringing our manufacturing expertise straight to the IFE 2026 in Phoenix. We know that industrial production demands consistency, which is exactly what our factory delivers. At this year's show, we are highlighting two of our core product lines: Thread Rolling Screws and Thread Cutting Screws.

These fasteners represent our deep specialization in industrial-grade components. But more importantly, they showcase our manufacturing flexibility. At Chang Yi Bolt, our production lines are built to handle your exact needs:

- Standard Products: High-volume, reliable fasteners built to strict industry specs for your everyday production runs.
- Custom Solutions: Made-to-print parts engineered precisely to your unique blueprints and technical demands.

Whether you are looking for reliable off-the-shelf standard components or highly specialized custom designs, we have the factory capacity and the technical know-how to make it happen. Stop by our booth at IFE 2026 to check out our Thread Rolling and Thread Cutting Screws in person. Let's talk about how Chang Yi Bolt can build a lasting partnership with your business.

3043

E CHAIN INDUSTRIAL CO., LTD

www.sqf.com.tw

E CHAIN INDUSTRY CO., LTD. specializes in the manufacturing and export of screws, nuts, bolts, and various metal fasteners. Our products are widely used in automotive components, construction hardware, machinery equipment, energy industries, and industrial assembly applications. With strong customized development capabilities, E CHAIN can manufacture special fasteners according to customers' drawings, samples, and specifications. We place great emphasis on dimensional accuracy, strength, corrosion resistance, and consistent quality. For automotive and industrial applications, we are able to provide material certificates, inspection reports, surface treatment information, and related quality documents upon request. Guided by the principles of "Quality First, Professional Service, Stable Delivery, and Sustainable Management," E CHAIN continuously improves its manufacturing processes and quality management systems. We also actively respond to ROHS, REACH, CBAM, and ESG sustainability trends, providing global customers with reliable, high-quality, and competitive fastening solutions. E CHAIN Industry — Empowering every fastener to connect the world.

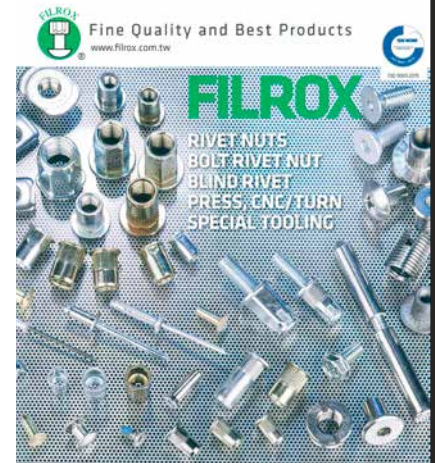

3945

FILROX INDUSTRIAL CO., LTD.

www.filrox.com.tw

Taiwan's most professional development and manufacturing supplier.

Manufacturing is an industry built on steady progress, where every achievement is earned through dedication. Since producing its first hollow rivet in 1975, FILROX has continuously expanded its product portfolio to include blind rivets, rivet nuts, rivet screws, special screws, and a wide range of fastening solutions. For more than 4 decades, FILROX has remained committed to the continuous advancement of technology and quality. The company has invested in advanced automated production facilities, including precision cold forging machines ranging from 1-die 2-blow to 6-die 6-blow configurations, tapping machines, automated optical sorting systems, blind rivet assembly lines, and other manufacturing equipment. These capabilities provide customers with greater flexibility in product design, dimensions, and application development, while the company's extensive tapping capacity enables agile production scheduling to meet diverse customer requirements. To ensure consistent product excellence, FILROX has implemented quality management systems and is certified to ISO 9001 standards. By listening closely to the needs of partners worldwide, the company continuously refines its manufacturing processes, quality assurance, and customer service. With high-quality products, standardized production systems, responsive service, and the ability to adapt quickly to market demands, FILROX has evolved into a diversified enterprise integrating professional manufacturing, product development, and global sales.

3143

FONG PREAN INDUSTRIAL CO., LTD.

www.fongprean.com

Founded in 1986, Fong Prean Industrial Co., Ltd. specializes in drywall screws, wood screws, self-tapping screws, self-drilling screws, collated screws, and customized fastening solutions for construction and industrial applications.

Guided by the philosophy "We Live for Solving Problems," Fong Prean continuously develops innovative fastening products and provides comprehensive OEM/ODM services to customers worldwide. The company operates under ISO 9001 and ISO 14001 certified management systems and exports to more than 25 countries.

At the 2026 International Fastener Expo in Phoenix, Fong Prean will showcase a range of high-performance fastening products and innovative solutions designed to improve installation efficiency and reliability. Visitors are welcome to meet with our team and explore future cooperation opportunities.

3841

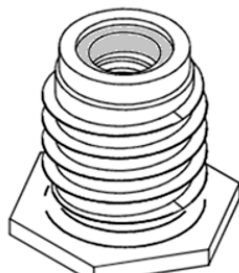

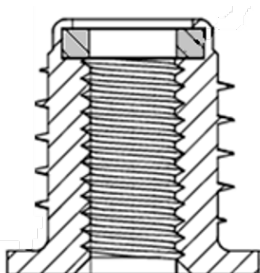

GOFAST CO., LTD.

www.gofast.com.tw

Gofast Co., Ltd. Engineering team supports our customers in facing the problems they experienced.

To provide an adjusting screw with stable friction, a special designed nylon ring is added over this threaded compression limiter.

From the concept to prototype, from PPAP samples to serial production, Gofast team demonstrates our flexibility while working on different projects.

This is a nut that our customer supplied to an OEM for years. However, there is complaint from time to time about its counterpart, the bolt, which would get loosening during vehicle operation. The customer came to us and addressed their needs. A prototype was provided shortly to the requirement.

3542

HU PAO INDUSTRIES CO., LTD.

www.hupao.com.tw

Hu Pao Industries Co., Ltd. has over 40 years of professional manufacturing experience and specializes in the R&D and production of high-quality automotive fasteners. The company is certified under the IATF 16949 and ISO 9001 quality management systems. Its main products include weld nuts, flange weld nuts, anti-loosening nuts, and various custom cold-forged nuts, which are widely used in the global automotive industry.

The company possesses comprehensive capabilities in cold forging, threading, press fitting, 100% optical sorting, and quality inspection. From product development, sample production, and PPAP documentation to mass production and delivery, we provide customers with comprehensive and professional technical support and solutions to ensure consistent product quality and reliable delivery times.

At this year's International Fastener Expo in Phoenix, we will showcase our latest automotive fastening products and manufacturing technologies, demonstrating our capabilities in high-precision manufacturing, consistent quality, and customized services. We cordially invite global buyers to visit our booth to exchange ideas and explore new opportunities for collaboration.

4039

J.C. GRAND CORPORATION

www.jcgrand.com

JC Grand is a leading Taiwan-based manufacturer and exporter of industrial fasteners and metal hardware components. For nearly 50 years, JC Grand has been serving customers globally with high quality fasteners and customized hardware products from its factories in Asia. All locations are ISO9001 and IATF16949 certified, and focused on cost-effectively delivering products and services of exceptionally consistent quality to our clients.

Internal production capabilities include cold heading, thread rolling, drill point forming, heat treatment (neutral hardening, carburizing and carbo-nitriding), zinc alloy plating, dip-spin organic topcoats, washer assembly, optical sorting, custom packaging and worldwide logistics. Current production and export average ~ 300 containers per month. US customers collectively occupy nearly 1/3rd of production capacity; if one includes the entire North American market, that ratio increases to over 40%.

JC Grand's proprietary ZNK+ alloy plating facility opened in 2023, focused on preventing corrosion in severe outdoor environments. Monthly production capacity has recently expanded to 800 tons per month, and is currently employed in extreme ISO Class 4 and 5 environments (salt spray requirements in excess of 2000 hours) in North American, European, Australia and New Zealand markets.

JC Grand's priorities at the 2026 IFE expo include meeting with existing customers, new customers and exchanging industry information (including tariffs and current pricing). Our customers are always looking to differentiate their product portfolios and lower their overall costs of purchasing, while adding value whenever possible. This year's focus is on introducing expanded capacity of JC Grand's proprietary ZNK+ zinc-rich multi-metal alloy coating system. JC Grand is also working closely with customers in the US market to optimize supply chain activities to reduce the burden of higher import tariffs. Please come and see us!

3941

JAU YEOU INDUSTRY CO., LTD.

www.jauyeou.com

JAU YEOU INDUSTRY CO., LTD. was established in 1979 and has over 40 years of expertise in fastener manufacturing. Under the leadership of Chairman Mr. Tea-ren Sun, the company has steadily grown into one of Taiwan's Top 10 fastener manufacturers through its commitment to quality, innovation, and customer satisfaction.

JAU YEOU holds a range of internationally recognized certifications, including IATF 16949:2016, ISO 9001:2015, EN 14566, EN 14592, ISO 14064-1:2018, and BSCI, demonstrating our dedication to quality management, sustainability, and social responsibility. JAU YEOU INDUSTRY CO., LTD. has established a global footprint, exporting to regions worldwide, including the United States, Europe, and Japan.

Guided by our core philosophy, "Do the things right at the first time to ensure quality and enhance efficiency," we have built a strong reputation for delivering reliable products and earning the trust of customers worldwide.

Building upon decades of manufacturing experience and technical expertise, JAU YEOU continues to expand beyond construction fasteners into broader applications, including automotive fasteners and customized fastening solutions. From product development to mass production, we are committed to providing comprehensive services and meeting the diverse needs of our global customers.

3746

KATSUHANA FASTENERS CORP.

www.katsuhana.com.tw

Katsuhana—The Flower of Victory, Committed to Excellence and Win-Win Partnerships

Katsuhana Enterprise, a professional screw manufacturer from Taiwan, is certified with ISO9001, CE 14566, and 14592. With over 25 years of experience in the fastener industry, our skilled team specializes in drywall screws, self-drilling screws, self-tapping screws, roofing screws, and painted screws, all of which are renowned for their superior quality.

The name "Katsuhana" in Japanese translates to "The Flower of Victory," symbolizing our pursuit of excellence and our promise to create win-win collaborations with our clients. Embracing the high standards of the Japanese market, we provide top-notch service and product quality to customers worldwide, earning the trust of loyal clients across North America, Europe, and beyond.

Producing high-quality screws requires not only advanced equipment but also expertise from experienced professionals. Katsuhana combines state-of-the-art machinery with skilled techniques to ensure that every stage of the production process meets customers' stringent quality requirements. Over the years, our products have been widely utilized in indoor and outdoor construction, light steel framing, furniture, and more. We continue to build long-term partnerships by consistently delivering stable and reliable quality.

At Katsuhana, we emphasize steady high quality, accurate delivery times, satisfactory service, and reasonable pricing. By deeply understanding our customers' individual needs and communicating effectively, we ensure prompt responses to their requests. We welcome you to experience a smooth and trustworthy procurement process with Katsuhana, where reliability and confidence flourish.

3145

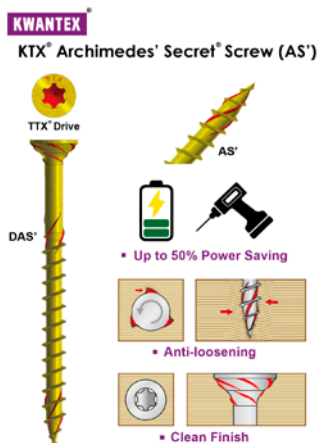

KWANTEX RESEARCH INC.

www.kwantex.com.tw

Kwantex Research Inc. launches AS'(KTX® Archimedes' Secret®) Wood Screw with better function and U.S. design patent, through the innovative integration of special TTX® drive, Tornado Ribs and AS'(Archimedes' Secret®) Thread, it brings a more stable and force-saving fastening experience to professional users in the trend of pursuing both efficiency and quality in high-end woodworking and construction engineering.

The patented TTX® drive features a unique six-hook design that prevents cam-out, ensures a secure fit with TTX® bits and delivers superior torque transfer. TTX® bits fit snugly into all standard six-lobe drives and conversely all six-lobe bits are compatible with TTX® drives. The head with Tornado Ribs design can help bore the hole, cut and press the wood fiber, it results in smooth finish without burrs and reduces the wood split risk, suitable for outdoor wood structural and high quality woodworking application.

AS'(Archimedes' Secret®) Threads are engineered to quickly grip the wood surface and shape the hole without cutting wood fibers. This allows the thread root to bond directly with the material, increasing fastening strength. The thread design also reduces driving torque, prevents splitting and loosening and maintains excellent pull-out resistance—reportedly making it a superior alternative to conventional TY-17 or dual-thread cut designs. It also provides up to 50% energy saving compared to regular screws, and surpasses most screws in the market. AS'(KTX® Archimedes' Secret®) Wood Screw redefines the value of professional wood screw installation with its high efficiency, high completeness, and high reliability.

L & W FASTENERS COMPANY

www.lwfasteners.com.tw

L&W Fasteners Company – Your Trusted Fastener Partner for Over 30 Years

For more than 30 years, L&W Fasteners Company has been dedicated to providing high-quality fastening solutions to customers worldwide, with a primary focus on the North American market. Through our commitment to reliability, professionalism, and customer satisfaction, we have established a strong reputation as a trusted sourcing and supply-chain partner in the fastener industry.

L&W offers customers flexible sourcing options and competitive manufacturing solutions supported by an extensive network of qualified manufacturers' partnership across Taiwan, China, and Thailand. Our strong local connections and decades of industry experience enable us to continuously develop new quality source, identify capable suppliers, and efficiently manage projects bid case from initial inquiry to final delivery to our customers.

Our product range includes a comprehensive selection of fasteners manufactured in accordance with major international specifications such as IFI (ASME), DIN, JIS, and ISO standards, as well as OEM and special-made products tailored to customer requirements. Our manufacturing capabilities cover cold-forged, hot-forged, machined, and stamped fastener products, ranging from standard specifications to custom and hard-to-source sizes. Available materials include carbon steel, stainless steel, alloy steel, and brass, serving a wide range of industrial applications.

Beyond supplying fasteners, L&W help customers streamline sourcing, reduce procurement risks, and improve supply chain efficiency. Our team works closely with customers from product development through production and delivery, ensuring quality, competitive pricing, and dependable service every step of the way. We warmly welcome customers and industry partners worldwide to visit us at International Fastener Expo and discover how L&W can support for your fastening needs and new business opportunities for mutual growth and success.

3045

LINKWELL INDUSTRY CO., LTD.

www.linkwell.com.tw

We specialize in the manufacture and export of a wide range of standard and customized fasteners for construction, automotive, furniture, industrial and general engineering applications.

Our product range includes Self Drilling Screws, Self Tapping Screws, Chipboard Screws, Thread Forming Screws, Drywall Screws, Concrete Screws, Window Frame Screws, Metal Frame Screws, Roofing Screws, Collated Screws, Furniture Screws, Deck Screws, Distance Screws, Hanger Bolts, Eye Screws, Sems Screws, Machine Screws, Stainless Steel Screws, and various special screws manufactured according to customer drawings and specifications.

We offer a comprehensive selection of head styles, drive systems, thread designs and point configurations to meet diverse application requirements. Customized products can be developed based on technical drawings, samples or specific performance requirements.

In addition to screws, we supply standard and non-standard bolts for automotive and industrial applications. Our nut product range includes Metal Lock Nuts, Hex Nuts, Square Nuts, Nylon Insert Lock Nuts, Flange Nuts, Cap Nuts, Cage Nuts, Weld Nuts, Knurled Nuts, Tee Nuts, Coupling Nuts, Strut Nuts, Toggle Wing Nuts, Wheel Nuts, Clinch Nuts, Automotive Nuts and other special nuts produced according to customer specifications.

Available materials include Carbon Steel, Stainless Steel and Brass, with a variety of surface treatments and coatings available upon request. We provide reliable manufacturing solutions supported by strict quality control and consistent production standards.

To meet different market demands, we also provide customized packaging, private labeling, barcode labeling, assortment and kitting solutions. With production capabilities across multiple manufacturing locations and extensive export experience, we are committed to delivering high-quality fastening solutions, competitive pricing, stable supply, and professional customer service to customers worldwide.

3037

MOLS CORPORATION

www.molscorp.com.tw

MOLS Group has nearly 40 years of experience in screw manufacturing and operates a supply chain system with screw manufacturing, heat-treating and painting. MOLS group expanded the business scope step by step. The screw manufacturing factory was set up in 1991, heat treat factory in 2004 and painting factory in 2018. MOLS is specialized in manufacturing Roofing Screws, Self-Tapping Screws, RV Screws, Gutter Zip Screws, HAVC Screws, Self-Drilling Screws, Home Appliance Screws and Triangular Thread Screws that are used in various industries. MOLS is dedicated to providing our best to all of our customers and use our valuable resources to create maximum benefits for our customers.

Introduction of Modern Painting Equipment

MOLS Group has worked out an achievement in the head painted screws in recent years, especially on Roofing Screws, Gutter Screws and RV Screws, and we also paint any screws that are required for head painting. In order to offer our customers steady lead time and good quality on painted screws, MOLS invested millions of US dollars to establish the painting factory as well as modern painting equipment. The customized modern automatic painting equipment has sufficiently increased the painting capacity and also avoided hand racking screws causing the unstable lead times. To ensure our customers have the good quality products, MOLS made a lot of effort to improve the screw performance in regard to drilling time and paint adhesion. The paint adhesion on screw heads and EPDM bonded washers is critical, so MOLS not only conducts the performance test with the testing machine but also imitates the real-world test on how customers use the screws in their applications.

The painting colors are customized to meet customers' needs, and we offer more than hundreds of colors to match customers' applications.

3552

SCREWTECH INDUSTRY CO., LTD.

www.screwtech.com.tw

Established in 1998, Screwtech Industry Co., Ltd. has excelled in the field of precision fasteners, specializing in screws ranging from M1 to M14. Their strength lies in an integrated production process—encompassing forming, secondary processing, and surface treatment—supported by advanced smart monitoring to ensure high precision and consistency.

They offer a versatile range of materials, including low-carbon steel, alloy steel, stainless steel, and copper, precisely catering to the demanding needs of electronics, automotive parts, medical devices, and machinery.

Quality is Screwtech's core competitive advantage. The company strictly adheres to international standards, including ISO 9001, ISO 14001, ISO 45001, and IATF 16949, while fully complying with RoHS and REACH environmental regulations. Every stage, from incoming material inspection to final packaging, undergoes rigorous monitoring using precision instruments to ensure superior yield rates. Through stable supply chain capabilities and a steadfast commitment to ESG sustainability, Screwtech effectively meets the modern industrial demand for high-efficiency, environmentally friendly, and high-quality fastening solutions.

3351

SHEH KAI PRECISION CO., LTD.

www.shehkai.com

Sheh Kai Precision Co., Ltd. is a Taiwan-based fastening manufacturer with over 30 years of experience serving the global construction and industrial markets. The company specializes in concrete screw anchors, bi-metal self-drilling screws, and professional drill bits, supplying customers across North America, Europe, and other international markets.

Sheh Kai's concrete screw anchor is ICC certified (ESR-4376). The anchor is approved for cracked and uncracked concrete and qualified for Seismic Design Categories A through F. It is also recognized for Florida High Velocity Hurricane Zone (HVHZ) applications, making it suitable for structural fastening, MEP systems, cable trays, pipe supports, and infrastructure projects.

Designed for fast and efficient installation, the anchor eliminates curing time, allows removability, and helps reduce overall installation costs. Combined with reliable performance and code-compliant approvals, it provides an effective solution for professional concrete fastening applications.

Sheh Kai continues to invest in product development, certification programs, and manufacturing excellence to support distributors, importers, and fastening brands worldwide.

3741

SHEN CHOU FASTENERS INDUSTRIAL CO., LTD.

www.shenchou.com.tw

Connecting the World
with Taiwanese Precision:
SHEN CHOU FASTENERS

Since our inception in 1989, SHEN CHOU FASTENERS has been at the absolute forefront of the industry as a premier, highly specialized manufacturer of stainless steel fasteners. For nearly

40 years, we have remained true to our core values of pragmatic operations, transforming our unwavering commitment to quality into the strongest support for our global clientele. Our dedication to manufacturing excellence and environmental responsibility is firmly backed by international certifications, including ISO 9001 and ISO 14064-1 for carbon footprint verification, alongside strict adherence to IFI and ASTM standards.

In today's volatile global market, we thoroughly understand that North American and global buyers demand absolute material integrity, supply chain stability, and sustainable compliance. As stainless steel specialists, we utilize optimized, systematic management and punctual delivery to effectively mitigate procurement risks for our overseas partners. Beyond offering standard parts, we excel in highly flexible, tailor-made R&D capabilities, precision-engineering premium solutions directly from customer blueprints.

Our comprehensive stainless steel product portfolio is engineered for maximum corrosion resistance and durability, featuring:

- High-strength stainless steel screws (Grade 304 / 316 with advanced tensile strength e.g. A2-70~110)
- Heavy-duty concrete and masonry screws
- High-security tamper-resistant screws
- Specialized composite decking screws
- High-penetration Self-drilling screws

Every single stage of our production line—from heading and threading to final systematic inspection—undergoes rigorous testing to guarantee flawless dimensioning and structural functionality. At Shen Chou Fasteners, we don't just manufacture hardware; we deliver the enduring strength of sustainable stainless steel.

SHEN CHOU FASTENERS: Securing your trust with decades of stainless steel expertise, connecting the limitless future of the global market.

3538

SPEC PRODUCTS CORP.

www.spec.com.tw

Based in Taiwan and Suzhou China, Spec Products Corp. has been an Integrated Industrial Parts manufacturer and supplier since 2001.

Our factory is certified to IATF – 16949 and ISO-9001, while our lab is certified to A2LA (American Association for Lab Accreditation). We export more than 20,000 items made to customers' prints or samples per year to USA, Europe, Japan and China, including cold/ hot forging, turning, plastic ejection and stamping, etc., from either our own or sub-contracted factories. We offer best manufacturing recommendation for cost saving and easier assembly. VMI (Vendor Management Inventory) and well-designed logistics have been the value for our long-term customers. Besides, we also own product patents including Nordic Bolt & Nut (Wedge Locking Fastener), Spec Locking Washer, Aluminum H.T Processes and some assembly devices, etc.

3441

SPECIAL RIVETS CORP.

www.srcrivet.com

Special Rivets Corp. (known as SRC) is a major global manufacturer of professional blind fastening systems. Founded in 1983, the company has grown into one of Asia's largest and most prominent suppliers of full-line blind rivets, blind rivet nuts and riveting tools. They export products to over 150 countries worldwide, serving a massive client base of industrial, automotive, and construction distributors. While headquartered in Taiwan, they have scaled their manufacturing with IATF 16949 certified production facilities in Mainland China and a major 45,000-square-meter facility in Thailand established to meet growing international demand in the U.S., Europe, Southeast Asia and around the world. Together, their capacity reaches over 500 million blind rivets per month.

Blind Rivets

- Suitable for applications where the back of the joint cannot be accessed
- Installed quickly and easily from one side of the workpiece
- Type: Standard Open End, Closed-End, Large Flange, Peel, Multi-Grip, Structural High Strength
- Material: Aluminum, Steel, Stainless Steel, Copper and Monel
- Designed according to the international standards, SRC blind rivets easily get access to various riveting tools for best performance.
- Colored blind rivets match Pantone, RAL or your color sample upon request

Blind Rivet Nuts

- Installed quickly and easily from one side of the workpiece
- Once placed, the internal threads are ready for a screw or bolt
- Designed to provide an efficient and cost-effective method of placing permanent threads in thin materials
- Perfect for usage in metal, fiberglass and rigid plastic previously too thin for tapped threads

Riveting Tools

- Ideal for installing blind rivets from one side of the workpiece
- Ranging from heavy-duty manual hand riveters to high-volume pneumatic (air-hydraulic) production riveters
- Featuring heat treated jaws and nosepieces for longer riveter life and easy switching between nosepieces to change rivet sizes.

3043

SUPERIOR QUALITY FASTENER CO., LTD.

www.sqf.com.tw

Superior Quality Fastener Co., Ltd. was established in 2008 and is a professional fastener trading company. The company is mainly responsible for international business development, customer service, export sales, and market channel management. With long-term experience in the screws, nuts, and hardware fastener market, we help customers obtain stable product supply that meets their specific requirements.

Superior Quality Fastener Co., Ltd. works closely with the manufacturing side of E Chain Industry Co., Ltd., integrating product development, manufacturing, quality confirmation, packaging, shipment, and export services to provide customers with one-stop fastener solutions. Through the market experience of the trading company and the production capability of the manufacturing side, the company can respond more precisely to customers' needs for specifications, delivery schedules, quality, and customized products.

The company continues to implement quality and environmental management systems and has obtained certifications including ISO 9001, ISO/TS 16949, EN 14592, EN 14566, IATF 16949, and ISO 14001, demonstrating its commitment to quality management, professional service, and sustainable business development.

3350

TAIWAN PRECISION FASTENER CO., LTD.

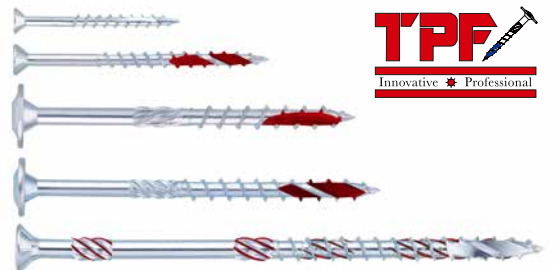

www.taiwan-precision-fastener.com

Taiwan Precision Fastener Co., Ltd. is dedicated to being the most reliable supplier of the best quality products. We strive to exceed our customer's requirements and expectations in every possible way.

We are a professional wood screw producer. Our products include wood screws, Mill Point self-drilling screws, chipboard screws, self-drilling screws, patented wood screw and self-tapping screws. Furthermore, we provide our own patented designs of wood screws for professional users. TPF has strong design capabilities and products that are unique and innovative. Our designs can help customers (with their private label) expand their market, increase their market share, and gain greater profits.

If you are tired of losing customers over price concerns, and need screws with unique and excellent performance, our patented designs can fully satisfy your expectations. In addition to CE, now ETA (ETA 19/0779) is available on all wood screws. In current market, most wood screws use a Type 17 cutting point. We not only provide wood screws with Type 17, but also wood screws with "XDC point", a newly patented design.

We believe this brand-new product will make you a leader in your market and help you to surpass all your competitors. We also provide all kinds of packing ways, such as, small box, carton, bucket, and customized packing box.

3946

TAIWAN SHAN YIN INTERNATIONAL CO., LTD.

www.shanyin.com.tw

Taiwan Shan Yin International Co., Ltd. (TSY) is committed to developing high-performance fastening solutions designed for modern construction and industrial applications. Our product portfolio covers patented construction screws, standard construction screws, industrial fasteners, self-tapping screws, self-drilling screws, automotive fasteners, electronic screws and customized OEM / ODM fastening products to support a wide range of industries and market demands.

Beyond offering a comprehensive fastening product range, TSY continuously invests in patented fastening technologies, multi-material solutions and high corrosion resistance coating systems to help global partners improve installation efficiency and strengthen market competitiveness.

Through optimized thread geometry, reverse-tip technology, cutting structures and performance-driven enhancements, TSY screws deliver faster installation, reduced wood splitting risks and improved overall fastening performance across a wide range of applications, including timber construction, decking, outdoor projects, steel framing, industrial installations and diversified fastening applications.

TSY's multi-material fastening solutions are designed for wood, plastic boards, drywall, steel sheets and selected concrete applications, helping customers simplify inventory management and improve installation convenience. In addition, SKT® Coating is engineered for outdoor and high-humidity environments, providing long-term anti-corrosion protection and durability for demanding construction conditions.

In addition to product innovation, TSY offers flexible OEM / ODM partnership support backed by manufacturing capabilities in Taiwan and Malaysia, ensuring stable supply, rapid development and global market assistance. More than just a fastener manufacturer, TSY is a fastening solution partner dedicated to helping customers build stronger market competitiveness and co-create premium advantages through innovative fastening solutions and long-term partnership support.

3144

THREAD INDUSTRIAL CO., LTD.

www.ticl.com.tw

THREAD Industrial Co., Ltd. continues to strengthen its position as a reliable fastening manufacturer through quality enhancement and supply chain diversification.

As part of its ongoing commitment to international customers, the company has been actively advancing its JIS certification program for bolts and nuts, further strengthening its capability to serve the Japanese market and customers requiring high-standard fastening products.

In parallel, THREAD continues to invest in inspection and quality assurance systems, including optical sorting and advanced measurement technologies, to improve product consistency and manufacturing reliability.

Beyond quality improvements, THREAD has expanded its manufacturing footprint with production bases in both Taiwan and Vietnam.

This dual-base strategy provides customers with greater sourcing flexibility and supply chain resilience while maintaining the company's long-standing commitment to quality and service.

Established in 1987 and operating from a 60,000-square-meter facility in Kaohsiung, Taiwan, THREAD manufactures a wide range of carbon steel nuts, bolts, and screws for global industries including automotive, construction, agriculture, industrial equipment, and infrastructure.

By combining vertically integrated manufacturing, continuous quality improvement, and a diversified production network, THREAD remains focused on creating long-term value for customers worldwide. ■
