

Thousands of Hardware for Supply

CHANG BING Collaborates with Customers to Create Business Opportunities

and customized hardware in carbon steel, stainless steel, brass, plastics and zinc alloy. With strong R&D ability and first-rate processing technology, it continues to extend marketing footprints to Europe, America, Australia, Japan and other advanced markets.

Dedicated to household, construction and DIY hardware industries for many years, Chang Bing Enterprise is specialized in OEM production

Particularly since the 2nd generation joined in 2009, sales have written a new chapter with a brighter future. Starting as a hook manufacturer, **Chang Bing mainly manufactures cup hook, screw eye, O.C.L. screw, clothes hanger hook, hanger bolt, scaffold eye bolt, gate hook & eye for wooden construction; household S hook, photo frame hardware, hardwall picture hook, curtain wire hook & eye, picture pin, zinc alloy wardrobe & towel rail fixture, robe hook, door & window hardware; eye bolt, U bolt, J bolt, camping nail, plastic anchor, other fastening & stamping parts, and hand tool** — all essential for it to develop the global market.

Compliant with ISO 9001:2015 and introducing CNC Swiss lathe & mill technology, Chang Bing continues to expand product portfolio, improve product precision, reinforce dies R&D, while integrating in-plant auto/semi-auto production lines (incl. quality control and packaging), to achieve excellent yield, precision and lead time. **It has successfully developed over 100 series and more than 1,000 sizes compliant with European, U.S. and Japanese standards**, and extended to developing industrial parts for automobile/motorbike, bike, sports utility, and medical parts approved by customers production part approval process III. Its ability in mass production, low-volume and category-diverse orders, and customized packaging not only creates lots of expectable possibilities for collaborative customers, but also reveals its critical “flexibility” advantage to continuously stand out in fierce market competition.

With 4 decades of experience, Chang Bing not only satisfies customers’ hardware demand but is also committed to customers to create business opportunities and sustainable growth together. Inside, Chang Bing adopts strict norms to ensure accurate product quality and production line control. Outside, it pays regard to long-term collaboration with customers, works actively with them to create higher market share and values product competitiveness. Many customers who worked with Chang Bing said, “The performance of Chang Bing’s team always exceeds customer expectation and its leading service deserves appreciation throughout the industry.”
